Naufal Mufid Fadhlurrohman

Data Enthusiast | Machine Learning Student at Bangkit Academy 2023 | Junior in Informatics
Bandung, West Java, Indonesia

Summary

A penultimate year Informatics student at Institut Teknologi Nasional Bandung, who loves challenges and never being tired for learning. I am interested and looking for opportunities in machine learning and data science. I am particularly passionate about learning and exploring the intersection of machine learning and sustainability. Fascinated by machine learning's potential and want to create positive social impacts through intelligent systems.

Currently, I am actively engage at Bangkit Academy as a machine learning cohort 2023 where I am learning subjects and topics related to data, machine learning, and deep learning. The main objective is to master tensorflow by the end of the program. This program is preparing me to become a data scientist and machine learning engineer.

As a highly motivated student, I am always trying to improve myself better and push myself beyond my limit and comfort zone also continuously expanding my knowledge and expertise in the ever-evolving field of technology. I love making designs during my spare time, especially 3D design.

Experience

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka
Bangkit Academy - Machine Learning Cohort 2023
February 2023 - Present (5 months)

Bangkit Academy led by Google, Tokopedia, Gojek, and Traveloka is a growing world-class tech talent that offered preparation for students with in-demand skills and tech certifications which also equips participants with tech expertise and soft skills needed that prepares students for their career and succeed at leading companies.

Institut Teknologi Nasional (ITENAS)
Coordinator and OOP Laboratory Teaching Assistant
February 2023 - Present (5 months)
Bandung, West Java, Indonesia

Designing OOP laboratory curriculum, coordinating other assistants, and teaching students.

BISA AI Academy (PT BISA ARTIFISIAL INDONESIA)
Independent Study - AI Hacker
August 2022 - December 2022 (5 months)
Bandung, West Java, Indonesia

Kampus Merdeka
KMMI - Industri dan Manufaktur Cerdas Berbasis AI
August 2021 - October 2021 (3 months)

KMMI (Indonesian Student Micro-credential) is a short course learning program that is part of Kampus Merdeka Program provided by Ministry of Education, Culture, Research, and Technology (Kemdikbud). The course was Industri dan Manufaktur Cerdas Berbasis AI cooperated with Huawei which contains AI fundamentals. There are several parts in this course which are assignments, middle test exam, mock exam, discussion, etc. with final score 95.
